Program Outline

The Master of Commerce is a two-year Postgraduate Degree Program to prepare you as skilled professionals in the sector of accounting and finance. The complexity of business operations today demands a blend of accounting and finance expertise. This program will provide you with a strong foundation that you will need to pursue a career in Finance and Accounting in a corporate setup. One of the avenues that open up after completing this program is that of teaching or pursuing research initiatives through a Ph.D. Along with functional and domain expertise, the program will also equip you with the competencies and skills required to advance your career into leadership and strategic roles. The Research project requires you to carry out in-depth research in your area of interest. This will give you an opportunity to practice your learnings. You will also be encouraged to publish your research with the support of a mentor. The program curriculum encompasses courses of global professional accreditation bodies like ACCA and CIMA to give you that edge required to compete and succeed.
